

Is Your Idea Worth \$5,000 This Summer?

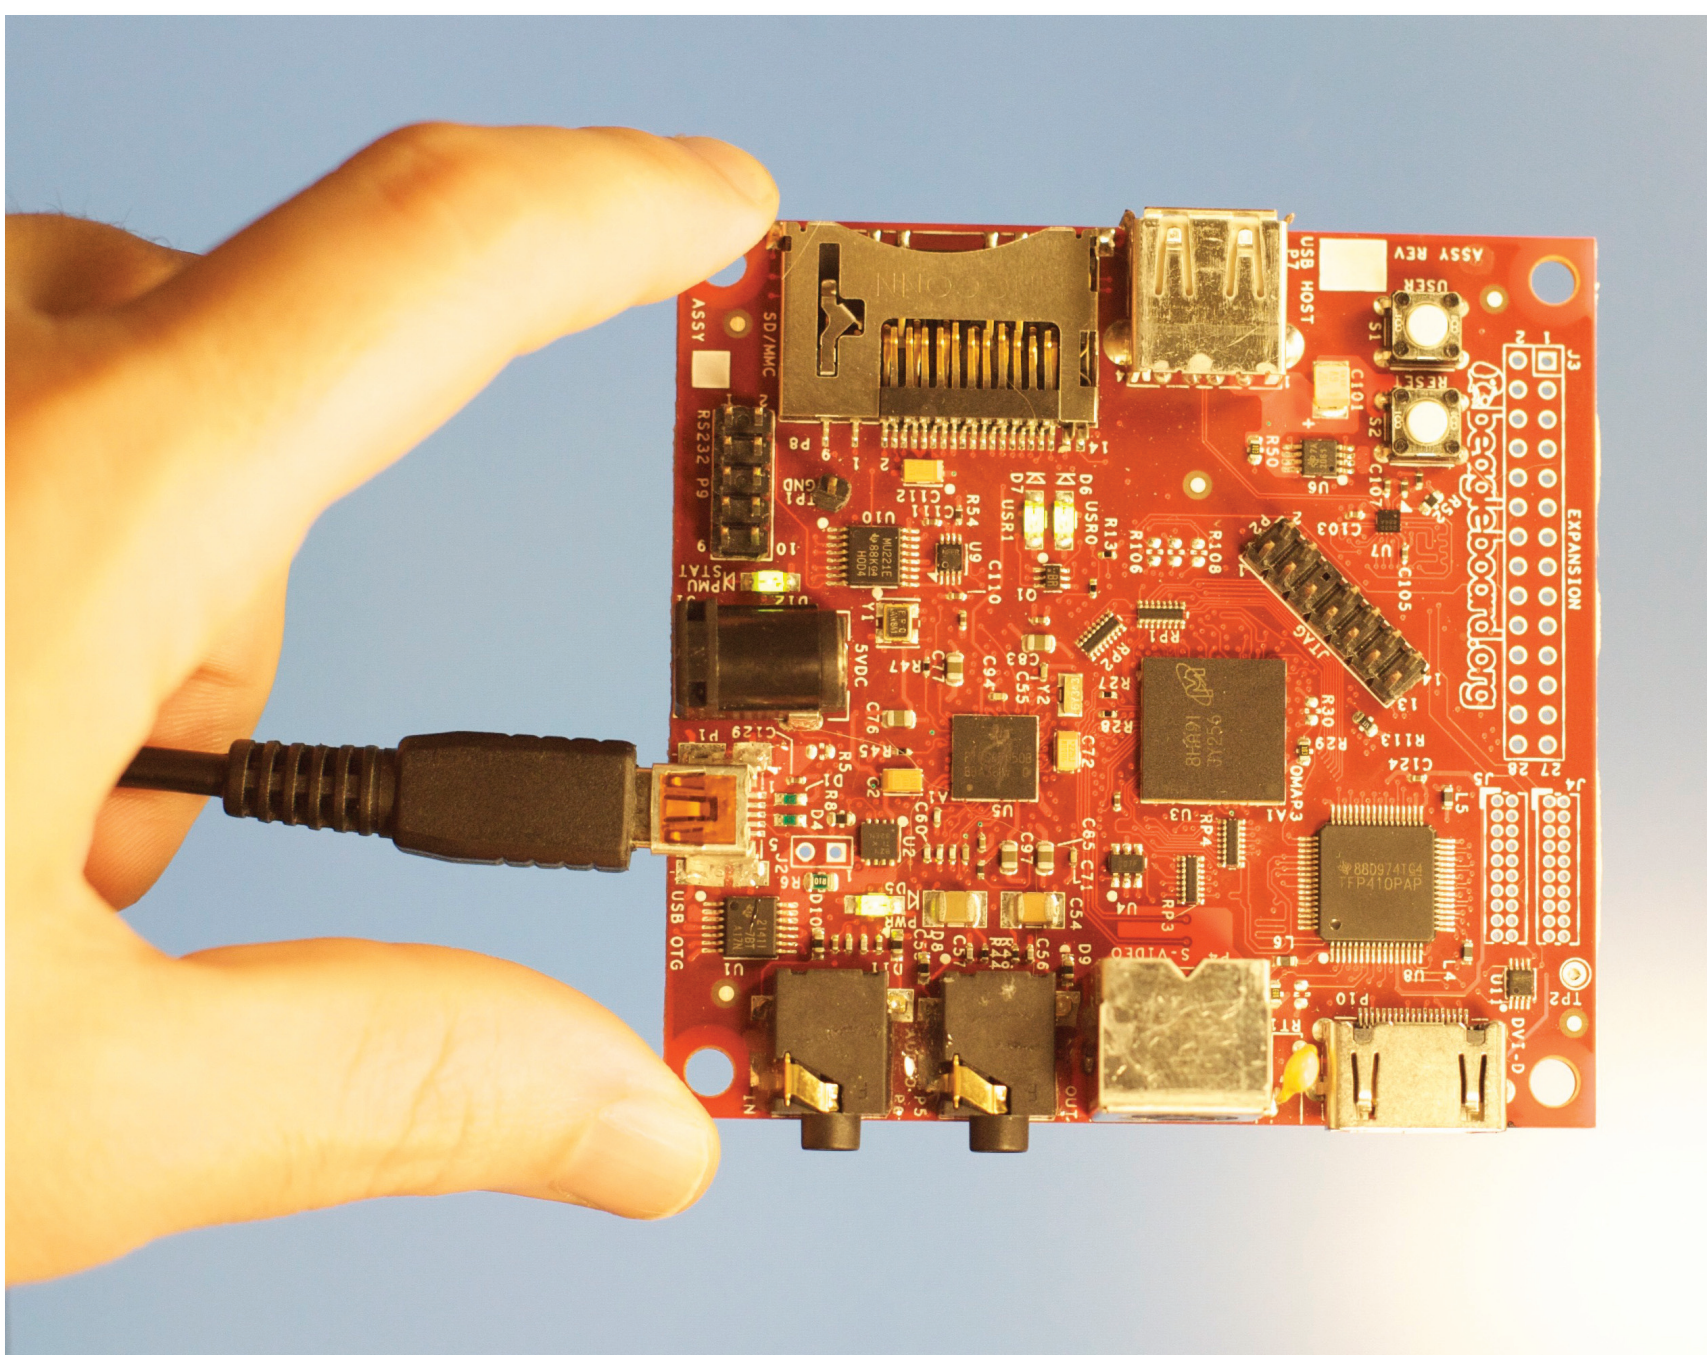

Propose It – Code It – Load It

Partner with beagleboard.org for the Google™ Summer of Code

Apply Now Through April 8

Why partner with beagleboard.org for your summer of code success?

- Uniquely tiny and low-power ARM platform capable of running desktop Linux apps
- Advanced multiprocessor, signal-processing, and low-power technology
- Build on Android, Ubuntu, Ångström, FFmpeg, or hundreds of other projects
- Highly active community and mentors experienced in embedded systems
- **Free board and cables** for every approved project

Get an Idea – Get a Mentor
